

VENTILATOR EQUIPMENT AND AIDS The products listed below are for use in long-term home care. The manufacturers generally sell or lease their home care ventilators and related equipment through distributors such as home health care companies. In the USA, a physician's prescription is necessary to obtain the equipment for insurance reimbursement. Many US companies have obtained the CE mark for the sale of their products in Europe. Some European companies have obtained FDA approval to sell their products in the USA. Please check the manufacturer's website to determine availability of products in your area.

Manufacturers' websites are listed in alphabetical order on pages 29-30.
