

## VENTILATOR CARE FACILITIES

The following facilities have been identified (but not endorsed by IVUN) as providing short, long or transitional care in a residential or skilled nursing facility for children and adults who use ventilators, either via a tracheostomy or a noninvasive interface. Many have specialized units for weaning critical care patients from a ventilator. Others provide general trach care, but do not have specialized units. They are arranged alphabetically by country, state, county and then by organization name.
